Ideation Phase

Empathize & Discover — Empathy Map Canvas

Date	November 2026
Student Name	Rachabathula Gnana Sruthi
Project Name	Automated Network Request Management
Maximum Marks	

Empathy Map Canvas

Dimension	Employee Perspective
Says	"I need a fast network connection and VPN access setup for my project."
Thinks	"Why does it take so long to get a network port or firewall exception approved?"
Does	Submits network requests through the Service Portal (/sp) and checks email for approval updates.
Feels	Wants a quick, transparent, and hassle-free fulfillment process without manual paperwork.
Pain Points	Incomplete technical info, unstructured forms, delayed approvals, and zero visibility into request progress.
Needs / Goals	Guided catalog items, automated routing, clear status tracking, and rapid provisioning.
