Brainstorm & Idea Prioritization

The project brainstorm focuses on a standardized ServiceNow network request management process, structured catalog data capture, dynamic form logic, multi-stage approval routing, and automated task fulfillment.

Idea Group	Priority
Service Catalog Item (Network Request)	High
Custom Network Database Table	High
Flow Designer Automation Logic	High
Variable Set with Auto-Populate Logic	High
Catalog UI Policies (New vs Existing)	High
Two-Level Approval Routing	High
Automated Email Notifications	Medium
List Views & Related Lists	Medium
Reports/dashboards	Medium
